

## Intermediate Bulk Containers (IBC's)

The container has been developed for efficient and safe handling, storage and transportation of various products such as corrosive and non-corrosive chemicals, edible oils and other foodstuffs.

### Special Features

- ✓ PE tanks with a 40 mm. integral-moulded level indicator (easy and accurate checking on liquid level)
- ✓ Fabrication with 1 -1/2" PVC recessed ball valves
- ✓ Special lining for the corrosive material
- ✓ Welded steel frame with hot-dip galvanized, epoxy painted or stainless steel 304
- ✓ Two-high stackable pallets permitting four-way entry by forkiift truck and capable for overhead lifting
- ✓ Compliance with FDA regulation (177.1520)
- ✓ Performance and safety tested according to British standards
